

Different Ways of Learning

A. Visual – Vision

1. Read and re-read
2. Before you read in a textbook, you should study:
 - a. Pictures and captions
 - b. Topics and headings
 - c. Questions at the end of a chapter
 - d. Read the summary at the end of the chapter
3. Make pictures in your head as you read (visualize)
4. Watch videos, TV news and documentaries
5. Use charts, maps, notes and flashcards
6. Practice visualizing or picturing words and concepts in your head
7. Write out everything for frequent and quick visual review

B. Auditory – Listening

1. Read out loud with a partner
2. Tape record for:
 - a. Important information
 - b. Vocabulary
3. Read out loud to yourself (also good for proofreading)
4. TV and radio information
5. Discussion/Lecture
6. Oral question and answer
7. Listen and take notes
8. After you have read something, summarize it and recite it aloud
9. Talk to other students, parents and teachers about class material

C. Tactile – Write/Do

1. Take notes
2. Underline or highlight
3. Type information into a document on the computer
4. Act it out
5. Make flash cards
6. Make a map or chart
7. Math: use graph paper and a calculator
8. Science labs
9. Trace words as you are saying them (spelling and vocabulary)
10. Facts that must be learned should be written several times
11. Make study sheets
12. Associate class material with real world things or occurrences
13. Role play
